borough have organized campaign clubs.

—Nobly a *Whaleless* a larger number of sub-

to Titusville gave the following result: Gen.

a buggy and hauled along the main street.

Wherever a meeting is held and in the auspices

—The Republicans of the Pennsylvania coal

regions are now in operation. The strike, it is

stated, is a failure so far as the eight hours sys-

tem is concerned. The loss caused by the strike

has fallen heavily on Schuylkill County, while the

Wyoming and other regions have been benefited

by it. Coal has advanced in consequence from

twenty five to fifty cents a ton in the market, and wages have been advanced from ten to fifteen

per cent of many of the colliers, the main work

log the usual hours.

—All Hall Vermont:

Vermont has fired the first gun of the cam-

paign, and it is a stunning one to Democratic

men. A Republican gun of thousands is some-

thing that cannot be argued away or fought

down. There it stands. The Democrats have

been bragging about a reaction, that reaches

everybody, all classes. "Republicans" the

have said, are disgruntled they are coming over to

our side. They go for a change. They will

have to make up their mind to live under Dem-

ocratic administration, they have said to us.

What a lot of Democratic prospects is the re-

port from Vermont, what a blow, an extinguisher!

We confess we are not prepared for an over-

all war, but the support of Grant and

Colfax would be greatly increased.

—All the colliers in the Pennsylvania coal

regions are now in operation. The strike, it is
